

CleanTech • Social Impact • Seed

AquaTrace Impact

IoT water-quality monitoring and low-cost purification platform for schools, clinics and rural communities.

Funding Ask: US\$900K Seed

Target Investor Fit: CleanWater Impact

MATCH SUMMARY

Industry	CleanTech; Social Impact
Stage	Seed
Ticket	US\$900K
Customer	B2B, B2G
Target Fit	CleanWater Impact

Clean water access is still operationally invisible

1.8B

people face unsafe water risk

Water quality failures often go undetected until symptoms appear.

36h

delay in manual testing

Lab-based checks are too slow for remote schools and clinics.

25%

filters fail before maintenance

Lack of monitoring reduces trust and system uptime.

Problem focus aligned with CleanWater Impact: "Khan hiếm nguồn nước sạch tại các nước đang phát triển".

Our Solution

A low-cost purification and IoT monitoring stack for clean-water operations.

- Sensor module tracks turbidity, pH, chlorine and filter status in real time.
- Edge gateway sends alerts to operators when water quality declines or maintenance is required.
- Dashboard helps NGOs, schools and local governments prioritize service routes and impact reports.

Technology Focus

Water Purification

IoT Monitoring

Impact Analytics

Remote Maintenance

Clean Water Operating System

From field sensors to impact reporting for B2G and NGO buyers.

Purification Kit

Low-cost filter and quality sensor package.

Field Gateway

Offline-first sync for remote clinics and schools.

Impact Dashboard

Alerts, service routing, quality history and reporting.

Affordable water-quality visibility for communities with limited maintenance capacity.

Market & Customer Focus

01

Schools

Monitor drinking water safety and reduce manual testing burden.

02

Clinics

Assure clean water for medical operations and patient use.

03

Local governments

Track quality across public access points and prioritize maintenance.

Customer focus exactly aligned with investor profile: B2B, B2G.

Business Model

Starter Kit

US\$600/site

Sensor kit, filter module and installation guide.

Monitoring

US\$39/mo

Quality alerts, dashboard and historical reporting.

Program

Custom

Multi-site analytics, B2G reporting and service route optimization.

Revenue combines device margin, recurring monitoring and program-level reporting services.

Traction & Validation

9

field interviews

School administrators, clinic operators and NGO teams.

3

prototype sensors

pH, turbidity and flow measurement.

2

pilot regions

Rural school and clinic clusters under review.

48h

maintenance alert goal

Reduce downtime through early detection.

We are preparing Seed fundraising to scale field pilots and a verified impact dashboard for B2G procurement.

Use of Funds

Funding Ask: US\$900K | Ticket fit: US\$300K - US\$2M

35% **Field hardware**

30% **Pilot deployments**

20% **Data platform**

15% **Impact partnerships**

Primary goal: deploy pilots, validate water-quality monitoring and build evidence for B2G procurement.

Why CleanWater Impact

Target Industries	CleanTech; Social Impact - AquaTrace Impact operates in CleanTech; Social Impact
Target Stage	Seed; Series A - current round is Seed
Ticket Size	US\$300K - US\$2M - funding ask is US\$900K
Technology Focus	Water Purification; IoT Monitoring - product architecture uses Water Purification, IoT Monitoring
Investment Thesis	Công nghệ lọc nước giá rẻ và giám sát chất lượng nước. - AquaTrace Impact combines low-cost purification with real-time water-quality monitoring.

Data Extraction Summary

startup_name	AquaTrace Impact
industry	CleanTech; Social Impact
funding_stage	Seed
funding_amount_usd	900000
target_customer	B2B, B2G
technology_focus	Water Purification, IoT Monitoring
problem_focus	Khan hiếm nguồn nước sạch tại các nước đang phát triển
business_model	Hardware-enabled SaaS and impact reporting
investment_thesis_fit	AquaTrace Impact combines low-cost purification with real-time water-quality monitoring.
best_fit_investor	CleanWater Impact

AquaTrace Impact

Make safe water measurable, maintainable and trusted.
