Target Fit	Cyber Defense Seed

AI-driven cyber attacks are scaling faster than defenders

SMEs struggle to keep up with the fast pace of AI-driven cyber threats, which are scaling faster than defenders can respond. This is particularly true for SMEs that lack the resources to invest in advanced AI-driven security solutions.

3x

Tăng số chiến dịch phishing tự động

Các mẫu tấn công thay đổi liên tục và khó viết rule thủ công.

42 min

Thời gian phân loại sự cố trung bình

Nhóm bảo mật nhỏ mất thời gian lọc cảnh báo giả.

70%

SME thiếu đội SOC chuyên trách

Nhu cầu về nền tảng phòng thủ chủ động, dễ triển khai.

Problem focus aligned with Cyber Defense Seed: "Gia tăng các cuộc tấn công mạng bằng AI".

Our Solution

Threat intelligence, AI security scoring and proactive response workflow for B2B security teams.

- AI threat intelligence engine theo dõi mẫu phishing, prompt injection và malware mới.
- Risk scoring cho từng endpoint, email và cloud account để ưu tiên cảnh báo thật.
- Playbook phản ứng tự động giúp đội IT cô lập tài khoản, khóa session và tạo ticket.

Proactive Defense

Security Architecture

A lightweight detection and response layer for companies without a large SOC.

Data Sensors

Email, endpoint and cloud activity streams.

AI Risk Engine

Threat graph, anomaly scoring and AI attack pattern detection.

Response Layer

Ticketing, isolation, alert routing and executive reporting.

Proactive defense without requiring enterprise SOC headcount.

Market & Customer Focus

01

SME IT teams

Thiếu SOC riêng nhưng vẫn cần bảo vệ email, endpoint và cloud apps.

02

Managed Security Providers

Cần công cụ cảnh báo chính xác để phục vụ nhiều khách hàng SME.

03

Regulated B2B companies

Cần audit trail, incident reporting và phản ứng nhanh.

Customer focus exactly aligned with investor profile: B2B.

Business Model

Starter

US\$399/mo

Up to 100 users, email security, weekly threat report.

Defense

US\$1,499/mo

Cloud apps, endpoint telemetry, playbook automation.

MSSP

Custom

Multi-tenant dashboard, API and volume-based AI analysis.

Revenue expands through protected users, telemetry volume and automation modules.

Traction & Validation

12

security interviews

SME IT leaders and MSSP operators.

4

pilot design partners

Testing alert triage and risk scoring.

2

prototype modules

Email threat intelligence and
cloud-risk alerts.

18d

setup estimate

Fast deployment without SI
projects.

We are preparing Seed fundraising to scale pilot deployments into a repeatable B2B security product.

Use of Funds

Funding Ask: US\$500K | Ticket fit: US\$200K - US\$700K

Primary goal: convert design partners into paid pilots while hardening AI threat detection accuracy.

Why Cyber Defense Seed

Target Industries	Cybersecurity; DeepTech - SecureFlow AI operates in Cybersecurity; DeepTech
Target Stage	Seed - current round is Seed
Ticket Size	US\$200K - US\$700K - funding ask is US\$500K
Technology Focus	Threat Intelligence; AI Security - product architecture uses Threat Intelligence, AI Security
Investment Thesis	Giải pháp phòng thủ không gian mạng chủ động. - SecureFlow AI directly supports proactive cyber defense against AI-enabled attacks.
